### **Recordal of Assignment in Patent and Trademark Office**

This application is a division of United States patent application serial no. 09/745,042, filed December 20, 2000 (now U.S. Patent No. 6,624,839). The assignment of application serial no. 09/745,042 is to Polaroid Corporation and was recorded on January 29, 2001 on Reel 011488, Frame 0284.

### **Extent of Interest**

The extent of Polaroid's interest is the whole of this invention.

### **Disclaimer**

I hereby disclaim the terminal part of any patent granted on the above-identified application, which would extend beyond the expiration date of the full statutory term of the aforementioned U.S. Pat. 6,624,839, and hereby agree that any patent so granted shall be enforceable only for the period that the legal title to said patent shall be the same as the legal title to the aforementioned U.S. Pat. 6,624,839, this agreement to run with any patent granted on the above-identified application, and to be binding upon the grantee, its successors or assigns.

Petitioner does not disclaim any terminal part of any patent granted on the above-identified application prior to the expiration date of the full statutory term of the aforementioned U.S. Pat. 6,624,839, in the event that the aforementioned U.S. Pat. 6,624,839 later: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR 1.321(a), has all claims cancelled by a reexamination certificate, or is otherwise terminated prior to expiration date of its statutory term, except for the separation of legal title stated above.
